Image quality, connectivity and creative control come together in this lightweight, full-featured DX-format DSLR. The new EXPEED 4 is our fastest image processor to date and complements the 24.2-megapixel CMOS. With its 39-point autofocus, improved white balance and wide sensitivity range, the D5300 lets you shoot stunning photos and Full HD movies. It's our first DSLR to feature a built-in Wi-Fi®, so you can instantly transfer your photos\*. Its GPS function saves location information to your images. A crystal-clear 3.2-inch LCD vari-angle monitor lets you shoot at any angle. With so many innovative features, the D5300 adds new dimensions to photography.

**SUPERB IMAGE QUALITY THROUGH CUTTING-EDGE INNOVATIONS**

Featuring enhanced quality and speed, the EXPEED 4 image processor is the perfect companion to the 24.2-megapixel DX-format CMOS. Capture full-resolution 12-bit RAW images at up to 5 frames per second. An improved white balance ensures brilliant whites, greater colour nuances, smooth gradations and sharp edges.

**ENJOY GREATER RESOLUTION IN ANY LIGHT**

The D5300 is designed without an optical low-pass filter (OLPF), allowing the high resolution CMOS sensor to record the smallest details with precision. Its wide sensitivity range of ISO100 – ISO12800 at normal setting delivers impressive noise reduction and is expandable to 25600 for extreme low-light situations.

**DEFINE EVERY DETAIL WITH ITS 39-POINT AUTOFOCUS**

For optimal sharpness, the D5300's accurate 39-point autofocus quickly locks on to and track subjects. Its 3D Tracking mode seamlessly maintains focus even when your subject is moving towards or away from the camera – ideal for videos and sports photography. Choose from a variety of autofocus-area focus modes, including Wide-Area AF, Face Priority AF and Subject Tracking AF to match your shooting styles.

**SHARING MADE EASY - OUR FIRST DSLR WITH BUILT-IN WI-FI®**

Share precious moments the instant you snap them. Simply transfer shots to your computer or mobile device with the D5300's built-in Wi-Fi®, a first among Nikon DSLRs. A free Wireless Mobile Utility app lets you remotely control the camera with your mobile device.

## **LOG YOUR TRAVELS WITH ITS BUILT-IN GPS FUNCTION**

When travelling, record GPS and altitude information to your images so you can relive your adventures with ease and convenience. A travel log function automatically maps your journey (with location points recorded at 15, 30 or 60-second intervals) even when the camera is off.

## **SHOOT AT ANY ANGLE WITH ITS 3.2-INCH VARI-ANGLE LCD MONITOR**

The D5300's large vari-angle monitor makes it easy to shoot from a variety of angles or to put yourself in the picture. Its 3:2 aspect ratio offers a wider full-frame view compared to conventional 4:3 monitors. With its 1036.8k-dot resolution, a 170° viewing angle and enhanced brightness, you'll view your images with greater clarity.

## **GET CREATIVE WITH SPECIAL EFFECTS**

Personalise your images from the camera with 9 special built-in effects, including the new Toy Camera and HDR Painting.

## **MASTER THE LIGHT WITH D-LIGHTING**

For backlit scenes, use its intelligent D-Lighting function to automatically set the right exposure for your subjects while retaining the natural ambience of the background.

## **CREATE SMOOTH FULL HD MOVIES AT UP TO 1920 X 1080/60P**

The D5300 lets you record videos with cinematic quality and stereo sound. The autofocus continuously tracks subjects to ensure fluid motion and crisp details. The frame rate can be set at 60p/50p/30p/25p/24p for additional video options.

## EXPLORE MORE POSSIBILITIES WITH A WIDE CHOICE OF ACCESSORIES

The D5300 is available in red, black and grey. For greater control, versatility and creativity, choose from an expanding line-up of NIKKOR lenses and accessories including Speedlights, Wireless Controllers, image editing suites and more to match your shooting style.
